

EAGLE
TELEMEDICINE

EXPERT CARE. ANYWHERE.

Why Does Eagle Believe in the Power of Telemedicine?

The Seamless Solution to the Physician Shortage

Eagle Telemedicine is solving staffing challenges for hospitals of all sizes. Whether you're a small rural hospital, a mid-sized facility, or a large metropolitan hospital, our telemedicine team can bridge any gaps in staffing or specialties.

An Integral Part of Healthcare Today

Eagle has been pioneering the telemedicine industry and perfecting our telemedicine models of care since 2008. We've performed over 15,000 patient admissions via telemedicine, and we average in excess of 20,000 patient care encounters annually. The benefits are clear: Administrators like the cost savings and the way telemedicine helps them deal with the constant challenges of the physician shortage and the geographic maldistribution of doctors. Physicians appreciate the work-life balance and the quick access to specialists.

GROWING SUCCESS IN TELEMEDICINE SPECIALTIES

- TeleHospitalist
- TeleStroke
- Tele-ICU
- TeleCardiology
- TelePsychiatry
- TeleNephrology
- Tele-ID
- Tele-Oncology
- NP/PA Backup

The Eagle Mission: • To lead the industry through insight and innovation, providing hospitals with the best solutions and tools to optimize patient outcomes. • To maintain a collaborative culture that furthers our mission of improving the performance of our partner hospitals, while setting the standard for a constantly evolving industry. • To continue to cultivate partnerships with hospitals large and small, empower them to make a positive impact in their local communities, and strengthen their ability to serve the underserved.
