

Why Work for Eagle?

If jobs in telemedicine interest you,
Eagle can make all the difference.

After working long hours and back-to-back schedules, physicians are anxious to find jobs in telemedicine to improve work-life balance.

For those considering telemedicine, one of the fastest-growing areas in medicine, finding the right organization is paramount. Some telemedicine and telehealth companies operate like locum tenens businesses – rotating doctors from hospital to hospital with minimal understanding of clinical workflow and facility operations. This can create challenges, like patient documentation and make onsite communication unnecessarily difficult to adapt to demand, manage shift coverage, and improve ROI.

The Eagle Edge:

- ✓ Strong hospital partnerships
- ✓ Professional training
- ✓ Focus on quality patient care
- ✓ Industry Pioneer

Eagle makes telemedicine easy. Here's how:

Expert Training

- Clinical workflows
- Patient procedures
- Hand-off policies
- Compliance

Pods (Team Approach)

- Physicians in small teams organized by specialty and facility.
- Hospitals benefit from the relationships developed with onsite staff.

Focus on Patient Care

Eagle Telemedicine was founded on the belief that all patients should have access to high-quality patient care no matter where they are located.
